Software And Games Jokaroom Casino

Jokaroom Casino uses BetOnSoft software, which provides attractive game graphics, including in 3D. You need to install the casino software and register. If a player has an account at another Genesys casino, all they need to do is activate it at Jokaroom Casino by entering their email address and password. Players who prefer to play directly from their browser also have this option. The casino offers a large portfolio of games with classic slots, video slots, a large selection of table games and even more live poker games, as well as Keno and scratch card games. Among BetOnSoft's slot machines we can find Age of Spartans in 3D, Dollars Down Under and Tales of New York, among others. There's also a mobile casino to choose from where we can play all the slots available at Jokaroom Casino, progressive jackpot games, video poker, keno and table games.

Jokaroom Casino: Tales Of New York slot machine description

Tales of New York is a humorous 40 line slot with typical New York themes. Betting odds range from 1.00 to 400.00. You can click both the wild symbol (Buddy the dog) and the random wild symbol – when Buddy pictures one of the symbols on the reels, it turns into a wild symbol on the next spin. Three or more hits of the cab driver symbol trigger 5 free spins with an x5 multiplier, 7 free spins with an x7 multiplier and 9 free spins with an x9 multiplier respectively. The scatter symbol, Chow's van, means a bonus game after 3 or more of these symbols are encountered. The Chow's Run bonus game is all about taking pictures of stolen items. The more photos you take before the thief notices it, the higher the bonus will be.
